

# WASHAKIE COUNTY CONSERVATION DISTRICT 2026 BARE ROOT SEEDLING TREE ORDER FORM

<b>NAME:</b>	
<b>EMAIL ADDRESS:</b>	
<b>PHONE NUMBER:</b>	
<b>MAILING ADDRESS:</b>	
Estimated arrival AROUND Arbor Day (April 27, 2026). You are required to pick up your order at: <b>208 Shiloh Road Worland, WY 82401</b>	
The Washakie County Conservation Districts Tree Program enables landowners to obtain trees at nominal cost for conservation projects. Examples: wind barriers for buildings, cropland, feedlots & roads, for erosion control, streambank stabilization, habitat restoration or enhancement, reforestation, native plantings or other conservation plantings. The trees are not for commercial resale.	
Learn more about each tree: scan QR code to clickable links for each species. Call WCCD @ 307-347-2456 ext 121 with any questions.	
<b>Not all Orders are Guarranteed</b>	
Since availability of stock is always changing, reimbursement will be made only if trees are out of stock.	
<b>Plan for Success: Species will not grow in every location.</b>	
Research species and your soil, verify supplemental water availability and provide protection from wildlife or livestock. Prepare for extra care during the first few years of growth, particularly in extreme weather conditions. While all species offered are winter hardy, plant growth and survival depends upon proper care, watering, soil-type and weather conditions.	

Updated 02/26/2026 Inventory can change throughout the season.
